**Professional Summary:** Data Analyst with 2 years of experience in data visualization, reporting, and light machine learning experimentation. Interested in transitioning into a Machine Learning Engineer role. Strong foundation in Python, SQL, and Power BI, with basic exposure to TensorFlow and REST APIs.

**Technical Skills:** Python, Pandas, NumPy, SQL, Power BI, Tableau, TensorFlow (basic), Flask (beginner), Git

## Experience:

**Data Analyst** — InsightWorks (2022–Present)
• Built automated dashboards to visualize business KPIs.
• Conducted exploratory data analysis to support decision-making.
• Collaborated with data engineers to optimize SQL pipelines.

**Junior Data Analyst** — Next Metrics (2021–2022)
• Cleaned and processed large datasets using Python and SQL.
• Assisted ML team by preparing labeled datasets.

**Education:** B.Sc. in Information Systems — Ain Shams University (2018–2022)

**Certifications:** IBM Data Analyst Certificate (Coursera, 2023)
